Description of the proposed training and the immediate potential impact of this training for the original laboratory and research within the Diabetes Action Canada Network (e.g. establishment of new multidisciplinary collaborations and/or cross to the internal network or internationally, knowledge transfer, patient-oriented research, standardization of methods, establishment of a platform or common resources, etc.)

max. 3000 characters including spaces

Continued...

Diabetes Action Canada Network – Vision and Mission

Our Vision is to transform the health trajectory for all Canadian men, women, and children with diabetes at risk for complications.

Our Mission is to develop patient- and research-informed innovations in equitable health care delivery designed to prevent diabetes and its related complications and to achieve the Quadruple Aim goals (improve: patient experience; population outcomes; health professional experience; health system cost).

5. BUDGET PLAN

Provide a brief description of the use of funds (\$10,000 over 1 year).

| Expenses | Estimated Costs |
|-----------------------------|-----------------|
| Travel costs | |
| Consumables | |
| Services | |
| Others (please add details) | |
| TOTAL | |

DOCUMENTS TO BE SUBMITTED IN PDF FORMAT

- 1) Application form completed by the principal investigator or co-investigator.
- 2) CIHR CCV (with the Detailed Contributions section) of all participating researchers and the trainee to enable the evaluation of scientific excellence.

All documents must be submitted to the DAC Training and Mentoring Coordinator at Michelle.Murray@umoncton.ca.
